

1. What was the name given to the most complete australopithecine ever found? **Lucy**
2. Who is credited with this 1974 australopithecine find? **Donald Johanson**
3. What is the name of burial stones (some featuring dinosaur carvings) that were found in Peru? **Ica Stones**
4. These stones have an **oxidized** coating on them that would take a minimum of two hundred years to develop.
5. What is the name for the oldest footprints ever found? **Laetoli**
6. True or False: Reptiles stop growing after a certain age. **False**
7. What percentage of “Lucy’s” skeleton was found in 1974? **40%**
8. What kind of monkey has an angled femur? **Arboreal (tree- climbing/ dwelling)**
9. Because the Bible starts with “In the beginning,” what word should not exist? **prehistoric**
10. True or False: There is much evidence showing that things were vastly different in the past. **True**
11. In the pre-Flood world there was **increased** air pressure.
12. There was twice as much **oxygen** and no **surface-area-to-volume** problem, which could account for the presence of large-sized insects.

1. Before the Flood, what was the average age of man? **912**
2. What would be three reasons to take young animals on the ark?
  - a. **They would be smaller (take up less room).**
  - b. **They would eat less.**
  - c. **They would sleep more.**
3. What was brought on the ark? Species or Kinds? **Kinds**
4. What is “spontaneous generation”? **the idea that nonliving material comes to life**
5. How many Flood legends have been recorded from around the world? **270**
6. How many authors are named in the book of Genesis? **ten**
7. What is a cubit? **the measurement from elbow to fingertip**
8. What is a vitamin that helps protect from cancer and harmful viruses? **B-17**
9. What type of wood did God instruct Noah to use to build the ark? **gopher**
10. Before the Flood, both man and animals were **vegetarian**.
11. Noah brought the following into the ark: only **land animals**, no **fish**; only those with **nostrils**, no **insects**; and two of **each kind**, not variety.

1. Parts of the first dinosaur to be assembled, the iguanodon, were found in what year?

**1809**

2. What word was invented in 1841 by Sir Richard Owen? **dinosaur**

3. Name four of the six reasons man killed dinosaurs.

- a. **For meat or for medicine**
- b. **To remove a menace**
- c. **To be a hero or prove superiority**
- d. **To remove competition for resources**

4. How many times is the word “dragon” mentioned in the Bible? **Thirty-five**

5. What Middle Eastern leader thought he was Nebuchadnezzar reincarnated? **Saddam Hussein**

6. What does the term “OOP ART” stand for? **out-of-place artifacts**

7. What whale byproduct is used in manufacturing perfume? **ambergris**

8. Fill in the blanks to complete two verses that reveal how dinosaurs fit into the Scriptures. “In the **beginning** God created the **heaven** and the **earth**” (Genesis 1:1).  
“For in **six** days the Lord made heaven and earth, the sea, and **all** that in them is” (Genesis 20:11).

9. In the early 1880s, the world turned away from its **biblical foundations** and accepted **evolutionary** premises.

1. What chapters in the book of Job does God talk directly to him? **38-41**
2. Name five things about the behemoth in Job 40 that correspond to dinosaur characteristics.
  - a. **He eats grass./He lives in the shade of the swamp.**
  - b. **His strength is in his loins and belly./ He is very strong.**
  - c. **His bones are like iron.**
  - d. **His tail is like a cedar tree.**
  - e. **He is the largest animal made./ His nose pierces through snares.**
3. How many questions did God ask Job? **eighty-four**
4. What year was the word “dinosaur” invented? **1841**
5. What is a word that would have been used in the Bible for dinosaurs? **dragons**
6. When did scientists finally discover the freshwater springs in the sea that the Bible recorded four thousand years ago? **1977**
7. While there is only one English word for light, there are two in Hebrew: *or* meaning **light itself** and *maor* meaning **light source**.
8. According to the book of **Job**, what causes wind and wind patterns? **Light**

1. What continent holds the largest swamp? **Africa**
2. What is the name for the study of hidden animals? **cryptozoology**
3. What does the word “brontosaurus” mean? **thunder lizard**
4. What does “Mokele-mbembe” mean? **stopper of the river**
5. How many sightings of possible dinosaurs have been recorded in the last one hundred years? **twenty thousand**
6. Write names given to dinosaurs or sea monsters in sightings (any three).  
  
**Ogopogo / Lake Champlain Monster (Champ)/Mokele-mbembe**  
  
**Cadborosaurus/Kussie/Morgawr/Sea Dragon/ Scituate Sea Monster**  
  
**The Old Man of Monterey /Nessie (Loch Ness Monster)/Bessie/ Issy**
7. How long is the Loch Ness River? **24 miles long (optional-900 feet deep, 1 mile wide)**
8. What is the largest swamp in the world? **Likouala**
9. The Hebrew word *re'shiyth* means “beginning, **chief, principle** thing.
10. **Musical** patterns seem to be evident throughout creation. Birds chirp; whales call to each other; people sing; and the Bible talks about stars singing as well.

1. Name two reasons why the Grand Canyon could not have been formed by the river at the bottom of it.
  - a. **The top is higher than the bottom.**
  - b. **There is no delta.**
2. What is the definition of “uniformitarianism”? **The present is key to past.**
3. Who was the Scottish lawyer who wrote *Principles of Geology* in 1830? **Charles Lyell**
4. Where in the world can the geologic column be found? **textbooks**
5. What do evolutionists say was the first creature to evolve? **trilobites**
6. Describe a lobe-finned fish. **fish with small appendage between body and fins**
7. **Cryptozoology** is the study of hidden animals.
8. **Circular reasoning** is being employed when one thing is used to prove another, which is then used to prove the first, such as “the rocks do date the fossils, but the fossils date the rocks more accurately.”
9. Two evidences against vast differences in ages of layers of the earth are the **absence** of **erosion** marks between them and the **existence** of **poly-strata (polystrate)** fossils.

Bonus Question: See next page.

Bonus question: Fill in the blanks in the 2 Peter 3:3–5 passage.

“Knowing this **first**, that there shall come in the **last** days **scoffers**, walking after their own **lusts**, and saying, Where is the **promise** of His **coming**? For since the fathers **fell asleep**, all things **continue** as they **were** from the **beginning** of the **world**. For this they willingly are **ignorant** of, that by the **Word** of God the **heavens** were of old, and the **earth** standing out of the **water** and **in** the water. Whereby the world that then was, being **overflowed** with **water**, **perished**.”

1. When was Charles Lyell's book *Principles of Geology* published? **1830**
2. What was the theory that Darwin rebelled against? **fixity of species**
3. Who was *HMS Beagle*'s captain during Darwin's voyage? **Robert Fitzroy**
4. At what location did Darwin stop on his voyage, where he observed huge tortoises and various finches? **Galapagos Islands**
5. What is the full title of Darwin's book? ***The Origin of Species by Means of Natural Selection or The Preservation of Favoured Races in the Struggle for Life***
6. The phrase "after his kind" appears how many times in Genesis 1? **ten**
7. What was Darwin's major at college? **theology**
8. Explain natural and artificial selection and the differences between them. **Natural Selection—nature decides who or what will survive.**  
**Artificial Selection—man or another outside source decides.**
9. Evolution is a religion because followers:
  - a. Believe it can violate the first two laws of **thermodynamics**.
  - b. Have to believe **matter** created itself, came to **life**, learned to **reproduce**, and changed from one **life-form** to another.
  - c. Who no longer believe are **excommunicated**.

1. What is “tautology”? a sentence that means nothing- needless repetition
2. What does “homology” mean? the study of things that are similar
3. Ernst Haeckel changed embryo drawings to help prove evolution.
4. In what year was he reprimanded by his own university? 1874
5. Why is this lie of embryology still in textbooks today? to justify abortion
6. What is the title of Hitler’s book? Mein Kampf
7. What does that title mean in English? My Struggle
8. Who founded Planned Parenthood in 1916? Margaret Sanger
9. What was Hitler’s reason for killing the Jews? He believed they were an inferior race  
he was exterminating to assist the evolutionary process.
10. What supposed race did Hitler believe was the “superior” one? Aryan
11. Hutton’s book cast doubt on genealogies showing a 6,000-year-old earth.
12. Lyell’s book caused doubt about the historicity of the biblical Flood.
13. Darwin’s book caused people to doubt the existence of even a Creator.
14. Evolution theory is based upon faulty assumptions.
15. It is assumed that mutations will make something new.
16. It is assumed that natural selection will make good mutations survive and take over the population.

1. Give the definition of vestigial organ. **part of anatomy no longer needed**
2. What part of human anatomy is stated by some textbooks to be vestigial but which has been shown to be part of its immune system? **appendix**
3. True or False: Some of our organs are vestigial. **False**
4. What part of the whale is still considered by many to be vestigial? **pelvis**
5. What does viscosity refer to? **the thickness of a liquid**
6. What were the results of Urey and Miller's experiment to create life?
  - a. 85% tar
  - b. 13% carboxylic acid
  - c. 2% amino acid
7. How many amino acids are there? **20**
8. Amino acids combine to make **proteins**; seventy amino acids are needed to make the simplest one.
9. How many cells does a unicellular organism have? **one**
10. Define the word "kind." **an originally created living thing that can produce other species (microevolution or variety within kinds)**
11. Smaller is not **simpler**; it is more complex.
12. There is more to life than the arrangement of **molecules**.
